tsmithassoc@gmail.com | <https://github.com/trisilver25> | <https://www.linkedin.com/in/tristin-h-smith/>

Skills

Programming: Python, Java, JavaScript, TypeScript, Swift, SQL

Frameworks: Angular, SwiftUI, SpringBoot, React

Experience

QA Analyst, FreeCast – Orlando, FL

Jan 2025 – Present

Previous Jr System Administrator

Sep 2024 – Jan 2025

Previous IT Support

Nov 2023 – Sep 2024

- Documented and executed detailed manual test plans for eight device platforms, including regression tests, reporting bugs, API validation, and stability/functionality.
- Enhanced departmental understanding of complex processes through comprehensive documentation covering build uploads to Tizen (Samsung TVs), test account generation, platform feature list detailing, and many more.
- Utilized Postman to test APIs and verify their compliance with business requirements efficiently.

Frontline Engineer, Blacktip – Altamonte Springs, FL

Jul 2023 – Nov 2023

- Met or exceeded the company's Service Level Agreement (SLA) of 20 minutes for issue resolution, ensuring minimal downtime and high client satisfaction.
- Cultivated strong rapport with clientele, ensuring a high standard of professional and responsive support.

IT Support, ClearEdge Title – Clearwater, FL

Aug 2022 – Jul 2023

- Developed a PowerShell script that cleared the cache and cookies of a user's browser.
- Managed and provided IT equipment by arranging desks, printers, and scanners upon request.
- Enhanced security by configuring multi-factor authentication for peers throughout the office.

Projects

World Map - Angular

<https://world-map-tsmith.netlify.app/>

- Utilized the World Bank Api to collect data about each country and display it on the front-end.
- Built a cross-platform application with a responsive design to ensure consistent performance across mobile, tablet, and desktop environments.

Excursions – SpringBoot

- This REST API was developed to facilitate communication between the Front-End and Database. It implemented all the CRUD functionalities for several database tables that were joined together.
